Notes on the Diploma Year Three Timetable

The **Supervision Groups** remain unchanged, in terms of membership and supervisor.

As BACP has made a change to the wording of the clinical supervision requirement for trainees we have had to revisit the timetable to ensure we are compliant. Apologies for the complexity that results! There are some points you should note:

- ***Students*** must take responsibility to book supervision sessions with their supervisor in order to receive the required minimum of 1.5 hours per month AND *normally* have supervision (including group) to a minimum fortnightly schedule.
- In **December**:
    - **Group of 6:** there are not enough weeks to allow you to have group and 1:1 sessions so you will each have 1.5 hours 1:1 supervision (over 2 weeks). There may need to be some flexibility over timing to all fit your sessions in so please negotiate together with Julie in advance.
    - **Group of 4:** you are covered by one group and normal 1:1 sessions, but there may need to be some flexibility over timing to all fit your sessions in so please negotiate together with Kevin in advance.
- **February:** There are occasions where the fortnightly schedule is impossible due to holidays (and if there is sickness), but a supervision date very early (or very late) in a month can count for the previous (or next) month's session. This applies to February/ March:
    - Please count March 2nd 1:1 as covering the end of February.
- **April:** There are not enough sessions in April to have both group and 1:1, due to Easter, so:
    - All students will have 2 x 45 minutes 1:1 sessions, timed to take place at either side of the Easter break.

FYI: We have made a slight change to the Diploma structure – this does not materially affect your year, but to be consistent across the three years, you will notice that the first half of each week's session is named as part of a **Professional and Personal Development** strand, and the second half of the session is part of the **Theory and Skills Development** strand. These two strands have been present throughout the three years of the Diploma but we are making this more explicit.
